

Bedtime Math's Summer of Numbers

The perfect partner for summer reading!

Here's how it works:

- ★ Kids pick up **Connect-the-Dot Constellation Charts** at the library at the beginning of the summer.
- ★ Bedtime Math posts a **wacky new math problem** every night on its **website** and **FREE app**.
- ★ Every time kids do a Bedtime Math problem, they **add a sticker** to their chart.
- ★ At the end of the summer, kids bring their charts back to the library to show how well they did!

Kids track
nightly math
on this fun
constellation
chart!

Add a little math
to your summer reading!
